SHELTERBOX THEORY OF CHANGE

1 INPUTS

– Equitable partnerships

– Thriving teams

– Sustainable and flexible funding

– Environmentally sustainable, market strengthening procurement

– Culturally relevant technical expertise

– Enabling systems and processes

ROOT CAUSE
Increasing numbers of people are unable to meet their own sheltering needs after crisis

3 OUTPUTS

Shelter

– Emergency shelter

– Repaired shelter

– Upgraded shelter

– Rented accommodation

– Transitional shelter

– Household items

Capacity Sharing

– Partner capacity to respond to shelter crisis increased

5 IMPACTS

Quality shelter supports self-recovery by contributing to:

– Personal safety

– Maintaining family units

– Physical and mental wellbeing

– Livelihood activities, benefiting household income and the local economy

– Space for education and learning

Principles of accountable and locally-led, inclusive humanitarian response

2 ACTIVITIES

– Preparedness

– Distributions

– Shelter training and information sharing for programme participants

– Referral to Protection services including support for Housing, Land and Property

– Capacity sharing with partners

– Local influencing to enable humanitarian access and security of tenure

– Referral/handover to recovery or development shelter actors

– Coordination, collaboration and networking

4 OUTCOMES

Shelter

– People live in improved shelters

Capacity Sharing

– Local partners better equipped to lead local responses

GOAL
Crisis affected people are healthy and resilient and no longer require assistance related to their displacement
